

Honeymoon

Romance in the islands

The word "honeymoon" easily evokes a sense of the exotic. Tahiti and her Islands can offer you this unique experience - where spending a magical time

together, far from the daily grind of the gritty city, is your sole occupation.

As soon as you arrive at Tahiti-Faa'a Airport, romance is in the air. The heady perfume of the tiare tahiti flower placed behind your ear the enchanting scenery, the pleasures of a catamaran sunset cruise or the intimacy of spending a quiet luxury meal together can fill you with a lifetime of memories and is by far the perfect way to share your first days together as a newlywed couple.

Rekindling the fires of initial passion or renewing your vows is another possibility. In a traditional Tahitian village setting, you can celebrate in style your many years of happiness together. What an unforgettable way to express your love for each other!
